MEMBERS MEETING : 7 FEBRUARY 2026 : AUDITORIUM, RAND AIRPORT

11. SAFETY

Thanks to Dr Rob Clark for his article in 01Feb ChapterGram on “*Demystifying Density Altitude*” and the continuous articles from Jim Davis, which are informative and entertaining.

12. ARO STATUS Update

Next Audit will be in March 2026.

Just to clarify, in terms of Part 149 and the requirements of ARO includes all members that “operate” and aircraft. In the case of EAA, this is a NTCA. And CAA defines “operate” as “to fly, use, or control the aircraft as a pilot or participant.” so owners and pilots are included.
